GIVE A HOOT!

Get Your GED

The Continuing Education Division of Beaufort County Community College is planning an intensive effort to improve the educational level of the workforce in Hyde County. This effort has been launched with the assistance of the Hyde County Planner, Ms. Angie Tooley, and Ms. Elsie Credle, a long-time volunteer in the literacy program. The program objectives are to identify adults in the Hyde County area who do not have their high school diploma, contact those individuals, and encourage them to enroll in classes that will help them obtain their GED High School Equivalency diploma.

In the near future, new opportunities will become available for employment in Hyde County. Most of these jobs will require a high school diploma or GED. Persons who need to complete their GED should start now to enroll in classes and begin preparation to take the GED test. Personal contact, local newspapers, flyers, and local radio stations will be used to “get the word out.” Persons interested will be encouraged to call and furnish information concerning their preference of class location, dates, and times.

Based on the information received, BCCC will organize classes to serve the largest number of persons possible. Ms. Tooley and Ms. Credle will be contact points in Hyde County, and Ms. Credle will be the personal contact representative.

This effort to improve the employability of the Hyde County workforce must be a community effort. BCCC, the Hyde County Planner, and Ms. Credle cannot accomplish this task alone. We need the help of everyone in the Hyde County community. If you or someone you know needs to complete their GED, or just to improve reading, writing, and math skills, please call.
