100 Percent Practical Nurses!

The 1993 Practical Nursing graduates of Beaufort County Community College have scored a 100 percent passing rate on this year's North Carolina practical nurse licensing exam. This is the second class of PN's to graduate from BCCC. Fourteen graduates took the National Council Licensure Examination for practical nurses in North Carolina on April 14th.

According to Judy Rahim of the North Carolina Board of Nursing, only 9 other programs in the state received a 100 percent passing rate. "Several of those programs, however, only had one or two students writing," she noted. "This is a great achievement for Beaufort County Community College, especially since the program is so young."

Carolyn Lee, director of BCCC's PN program, says, "We are proud of the practical nursing class of 1993. This class has made history at Beaufort County Community College by being the first practical nursing class with a 100 percent passing rate. We wish the members of this class much success in their careers."

Congratulations to the 1993 Practical Nursing class! Hats off to the faculty, Carolyn Lee, Gail Leanderts, and Dale Everett, for the excellent preparation of the second class of PN students.
