100% Nursing Passing Rates

The North Carolina State Board of Nursing has announced that 1994 Associate Degree Nursing graduates and Practical Nursing graduates of BCCC have scored 100 percent passing rates on this year's North Carolina registered nurse and practical nurse licensing exams, respectively.

This is the fifth year in a row that BCCC ADN graduates all passed the National Council Licensure Examination for registered nurses in North Carolina. Sandra Edwards, Chair of the Allied Health Division at BCCC, is especially proud of this year's class for two reasons. This year's class was one of the largest graduating class in the history of the program, with 27 students. In addition, this is the first year the exam was computerized.

In the three years the PN program has been in operation at BCCC, this is the second consecutive year that all graduates passed the National Council Licensure Examination for practical nurses in North Carolina. Ms. Edwards says, "we have quality students who have worked very hard to reach this goal. We also have highly qualified nursing faculty who are truly committed to the success of our students."
