Educator Leadership Institute

Seventeen Beaufort County school teachers, counselors, librarians, and administrators participating in the Educator Leadership Institute toured Beaufort County Community College in March. The purpose of the leadership program is to introduce educators to the business world and increase their awareness of career opportunities for students. During the BCCC visit, participants toured the campus, learned about the admissions process, educational programs, and library services.

In the photo above, BCCC librarian, Penny Sermons, gives an on-line demonstration of resources available in the library.
